

CornSolv[™]

Best Applications:

- Heavy grease and oil cleanup
- Highly Effective Metal Parts and Tool Cleaner
- High Solvency Power for Resins, Polymers, and Dyes
- Floor Stripping Products to Remove Polymers and Polishes
- Excellent Solvency for Paints, Coatings, and Inks
- Excellent Replacement for Mineral Spirits, MEK or MIBK

Usage and Environmental Benefits:

- Certified USDA Bio-based Product
- Replaces Traditional Toxic Solvents for Many Cleaning and Degreasing Applications
- Not Classified as a Hazardous Air Pollutant (HAP)
- Water Rinseable
- 100% Biodegradable to Carbon Dioxide and Water
- Available in Jugs, Drums, and Totes

Technical Data:

Dangerous goods class:	3	Abrasives:	None
Physical State:	Liquid	Flash point:	> 133° F ASTM D93 closed cup
Odor:	Mild, ester-like	Boiling point:	309° F
Color:	Clear	Vapor Pressure:	1.7 mmHg @ 68° F
PH Concentrate	N/A	Evaporation rate:	0.22
Net Weight:	8.01 LB/GAL	VOC content:	8.61 lbs/gal
Specific Gravity	1.031	Toxicity:	N/A
Molecular Weight:	N/A	Biodegradable:	Yes, begins at 28 days in soil
Solubility in water:	Complete	Surfactants:	None
Rinseability:	Excellent		

Warning: To help prevent damage to exterior surface finish, please wipe off and/or rinse with water any residual release agent from all painted surfaces.
